Pay Attention To Your Actions

Pay attention to your actions.
Watch them carefully.
Treat your actions with care.
Your actions create your character.
Your actions create your state of mind.
Your actions dictate where you are going in life.
Most of us are reactive beings.
We react without thinking about what appears to us.
A wise man does not react but ponders over the situation and then acts.
He speaks from his heart and wisdom.
The wise man learns from his mistakes while others make the same mistake over
and over.
This is the true maturity of man.

Pay Attention To Your Craft

When I was young I loved baseball.
I once heard a story that Ted Williams didn't go to the movies because he said it
would hurt his eyes.
He had exceptional sight and reflexes.
You had to be if you had many seasons when your batting average was over 400.
He didn't party, smoke, or drink.
I'm sure many people thought he was a fuddy-duddy.
Yet he was the best of the lot.
He paid attention to his craft.
Maybe he was baseball's mystic.
He turns baseball into a science and an art.
He had complete devotion to the game.
He did not get sidelined by the many distractions of life.
He just loved to play the game.
He was the best of the best.
Many famous ballplayers need to look at his devotion to the game.
Pride and ego weren't in his game.
He did not need to show off.
He had nothing to prove.
Sounds like a mystic to me.

Pay Yourself First

The wise man says Pay yourself first.
Take that money and invest it wisely.
Over time your fortune will grow.
Schools do not teach this.
Our government does not recommend it.
They want you to be a slave.
A person who understands wealth is a threat.
The knowledge he has.
He eventually can retire and live off his interest.

Peace

There would be no war if man was peaceful.
There would be no fights between men.
You may have a different point of view.
We are all different flowers.
How boring it would be if all the flowers in the world were sunflowers.
To be peaceful is the greatest strength.
War is easy compared to peace.
It's easy to blow up and fight your fellow man.
It takes a wise man to diffuse the bomb of anger within.
Throw away your bombs.
Throw away your ideas that my way is the only way.
I'm going to convert you.
Discover the inner peace of life.
It's like dumping that Oreo cookie in the glass of milk.

Peace On Earth

Did you know that God does not bring peace to the earth?

That is our choice.

Did you know that God won't stop a war?

That is our choice.

Did you know that God won't stop poverty on earth?

That is our choice.

God won't stop the problems we have created.

That is our choke.

Peanuts

The world shall never forget Charles Schulz.
Peanuts inspire us all.
We loved Snoopy and Charlie Brown.
Linus with his blanket.
The red baron.
Charles
You inspired us.
May God be with you.

Pickup Game

Do you remember the pickup games you played when you were a kid?
There was no adult supervision.
There were just kids playing for fun.
Nowadays kids are part of a team with a coach.
Many coaches think that winning is the goal.
They yell and curse at the kids.
The kids just want to have fun.
They are learning and growing.
Don't take the joy out of life for them.
Winning is not everything.
In fact, the majority lose.
But didn't Darwin say the survival of the fittest?
In his book, he mentions cooperating in nature more than the survival of the fittest.
Man needs to cooperate and have fun.
We are here to enjoy this life.
We don't need coaches who put us down.

Play Your Part

If you want peace on earth, play your part.
If you want people to be kind to you play your part.
If you want your family to love you play your part.
If you want people to like you play your part.
If you want to help somebody play your part.
If you want someone to get elected, play your part.
If you want to change this world play your part.
If you want heaven on earth, play your part.
If you want people to understand you play your part.
You have a part to play in this world.
We need you to play your part.

Please Pull Over To The Right

When you first learned how to drive, you learned to pull over to the right when an emergency vehicle comes by.

How selfish we are when we refuse to do so?

I'm in a hurry.

You are going to have to wait.

Yet if the ambulance was going for us we would be furious.

Remember someday it may be you.

Respect your fellow man.

Poetry

The world needs Poetry.
Poetry is a way for humanity to express his soul.
We talk and exchange words every day.
Yet so much of it is superficial words.
Hi, how are you?
I'm fine.
Poetry allows a person to go deep inside.
It allows a person to contact emotions and feelings and the soul direct.
From the unconscious to the conscious.
There is a place inside where the poet dwells.
Words spring from these wells.
The water can be bitter or sweet.
There is a message hidden deep.
The poet tries to capture the experience behind the words.
The poet conveys the dreams of man.
Hidden they are, in a ton of sand.
The poet causes the wind to blow inside the mind of man.
A question arises inside your mind.
The sand blows away and you find the jewel inside.
Maybe all a poet does is ask the right questions that will trigger man.
Once we have the questions we want to be answered, we can find the answer inside
of us.
The poet has the questions, not the answers.
The answers lie inside your heart.
